

Carol Henderson

Opulescence

Elegant European Inspired Jewellery

STUNNING JEWELLERY CREATED WITH PASSION AND GORGEOUS MATERIALS. LUXURIOUS STYLE, DELICIOUS DESIGN.

Founder of Opulescence, Carol Henderson, has long had a fascination for all things that sparkled and glistened. As a child, she was forever getting into trouble for touching the cut glass stopper on her father's crystal port decanter as she marvelled at the rainbows inside the prism.

Having always loved jewellery Carol decided to learn the techniques involved in jewellery making and her passion for design was ignited. This led her to create a gorgeous range of classic, glamorous jewellery and launch Opulescence as an online designer jewellery store.

Originally from London, Carol now lives with her family in Auckland. Carol says she draws huge inspiration from the country she lives in.

"I feel so blessed to be in New Zealand and find the beautiful light and colours in the ocean and landscape never fails to motivate me. Some of my other inspiration comes from the glamour of the Hollywood silver screen era and the luxury of old-world European interiors which always sends my mind spinning with creative ideas".

Carol designs beautiful necklaces, bracelets, pendants, earrings and a stunning bridal range. She uses exquisite materials including Swarovski crystals, freshwater pearls, cubic zirconias, semi precious stones, and satin ribbon all in irresistible colour schemes.

Some of Carol's more popular pieces are her extravagant pendants. They have been designed to be detachable so they can be clipped onto an existing necklace you want to freshen up or to one of the beautiful string of pearls available at Opulescence.

Carol has some exciting things in the pipeline for the Opulescence range – she is working to expand her bridal collection and is designing an exotic, vibrant, resort wear range in tropical colours such as fuchsia and orange and the more spring colours like aqua, violet and lavender.

Log onto the Opulescence website to experience the stunning range of hand-made pieces created for all classic, elegant women. On the website you can also join the Opulescence family and start receiving their informative monthly newsletter that covers everything from the latest in jewellery design to special offers and interesting jewellery related articles.

Carol's ultimate desire is to use her design skills to incorporate a range of luxury handbags, belts and sunglasses into the Opulescence range and to see Opulescence grow to become one of the leading New Zealand designer accessories brands in South East Asia. ◆
